ABOUT

AI Enable car parking using OpenCV

The AI-Enabled Car Parking System Utilizing OpenCV Technology is a cutting-edge project that aims to revolutionize the way parking lots operate. This system uses OpenCV, a popular computer vision library, to enable vehicles to park autonomously.

✅ The OpenCV library analyzes the footage and identifies the available parking spaces in the lot.

✅ The system is designed to be highly accurate, and it can detect small and large vehicles, even in low-light conditions.
